INDEX TO VOLUME VIII — 1957

AERIAL GUNNERY

The Aiming Problem in Aerial Gunnery, M. Hancock, p. 31 (February).

AERODYNAMICS

See also Jet Flap, Boundary Layers, Wind Tunnels.

Flow about Cones at Very High Speeds, H. K. Zienkiewicz, p. 384 (November).

Note on the Extension of Evvard's Method to Wings with Subsonic Leading Edges Moving at Supersonic Speeds, G. J. Hancock, p. 87 (February).

On the Generation of the Streamwise Component of Vorticity for Flows in Rotating Passages, Austin G. Smith, p. 369 (November).

On the Measurement of Supersonic Aerofoil Drag by Pressure Traverse, R. E. Meyer, p. 123 (May).

The Oscillating Two-Dimensional Aerofoil Between Porous Walls, D. G. Drake, p. 226 (August).

ALEXANDER, A. J. and J. WILLIAMS

Some Exploratory Three-Dimensional Jet-Flap Experiments, p. 21 (February).

ALUMINIUM ALLOYS

See also Elasticity.

ARMSTRONG, W. D.

An Experimental Investigation of the Secondary Flow Occurring in a Compressor Cascade, p. 240 (August).

BABISTER, A. W.

Stability and Response of Systems Satisfying a Second-Order Linear Differential Equation with Time-Dependent Coefficients, p. 78 (Feb.); Errata, p. 205 (May).

BLOOMER, N. T.

Notes on the Mathematical Design of Nozzles and Wind Tunnel Contractions, p. 279 (August).

BOUNDARY LAYERS

Approximate Methods for Predicting Separation Properties of Laminar Boundary Layers, N. Curle and S. W. Skan, p. 257 (August).

An Approximate Method for the Calculation of Turbulent Boundary Layers in Diffusers, J. F. Norbury, p. 58 (February).

BUCKLING

Effect of Higher-Harmonic Deflection Components on the Creep Buckling of Columns, S. A. Patel and J. Kempner, p. 215 (August).

A Reduction Method for Buckling Problems of Orthotropic Plates, P. Shuleshko, p. 145 (May).

CASCADES

An Experimental Investigation of the Secondary Flow Occurring in a Compressor Cascade, W. D. Armstrong, p. 240 (August).

COLLAR, A. R.

On the Stability of Accelerated Motion: Some Thoughts on Linear Differential Equations with Variable Coefficients, p. 309 (November).

CRACKS

Non-Propagating Cracks in Vee-Notched Specimens Subject to Fatigue Loading, N. E. Frost, p. 1 (February).

CURLE, N. and S. W. SKAN

Approximate Methods for Predicting Separation Properties of Laminar Boundary Layers, p. 257 (August).

DIMMOCK, N. A.

Some Early Jet Flap Experiments, p. 331 (November).

DRAKE, D. G.

The Oscillating Two-Dimensional Aerofoil Between Porous Walls, p. 226 (August).

DUNCAN, W. J.

Analysis of a Vector Field and Some Applications to Fluid Motion, p. 207 (August); Erratum, p. 396 (November).

ELASTICITY

Non-Linear Elasticity in Aluminium Alloys, A. B. Watts, p. 103 (May).

ELLINGTON, J. P. and H. McCALLION

Moments and Deflections of a Simply-Supported Beam Grillage, p. 360 (November).

FATIGUE

See Cracks.

FRANKLIN, R. E.

Noise Measurements on Cold Jets using Convergent-Divergent Nozzles, p. 346 (November).

FROST, N. E.

Non-Propagating Cracks in Vee-Notched Specimens Subject to Fatigue Loading, p. 1 (February).

GILLIES, D. B. and P. M. HUNT

A Solution of the Flutter Determinant on a General Purpose Electronic Digital Computer, p. 185 (May).

GRILLAGES

A Finite Series Solution for Grillages under Normal Loading, D. F. Holman, p. 49 (February).

Moments and Deflections of a Simply-Supported Beam Grillage, J. P. Ellington and H. McCallion, p. 360 (November).

HANCOCK, G. J.

Note on the Extension of Evvard's Method to Wings with Subsonic Leading Edges Moving at Supersonic Speeds, p. 87 (February).

INDEX

HANCOCK, M.
The Aiming Problem in Aerial Gunnery, p. 31 (February).

HOLMAN, D. F.
A Finite Series Solution for Grillages under Normal Loading, p. 49 (February).

HUNT, P. M. and D. B. GILLIES
A Solution of the Flutter Determinant on a General Purpose Electronic Digital-Computer, p. 185 (May).

INTERCONTINENTAL MISSILES
Maximum Ranges of Intercontinental Missiles, D. F. Lawden, p. 269 (August).

JET FLAP
Some Early Jet Flap Experiments, N. A. Dimmock, p. 331 (November).
Some Exploratory Three-Dimensional Jet-Flap Experiments, J. Williams and A. J. Alexander, p. 21 (February).

KEMPNER, J. and S. A. PATEL
Effect of Higher-Harmonic Deflection Components on the Creep Buckling of Columns, p. 215 (August).

KOSKO, E.
Matrix Inversion by Partitioning, p. 157 (May).

LAWDEN, D. F.
Maximum Ranges of Intercontinental Missiles, p. 269 (August).

McCALLION, H. and J. P. ELLINGTON
Moments and Deflections of a Simply-Supported Beam Grillage, p. 360 (November).

MARTIN, A. I.
Approximation for the Effect of Twist on the Vibration of a Turbine Blade, p. 291 (August).

MATHEMATICS
Analysis of a Vector Field and Some Applications to Fluid Motion, W. J. Duncan, p. 207 (August); Erratum, p. 396 (November).
Matrix Inversion by Partitioning, E. Kosko, p. 157 (May).
A Solution of the Flutter Determinant on a General Purpose Electronic Digital Computor, D. B. Gillies and P. M. Hunt, p. 185 (May).
On the Stability of Accelerated Motion: Some Thoughts on Linear Differential Equations with Variable Coefficients, A. R. Collar, p. 309 (November).
Stability and Response of Systems Satisfying a Second-Order Linear Differential Equation with Time-Dependent Coefficients, A. W. Babister, p. 78 (February); Errata, p. 205 (May).

MEYER, R. E.
On the Measurement of Supersonic Aerofoil Drag by Pressure Traverse, p. 123 (May).

NOISE
Noise Measurements on Cold Jets using Convergent-Divergent Nozzles, R. E. Franklin, p. 346 (November).

NORBURY, J. F.
An Approximate Method for the Calculation of Turbulent Boundary Layers in Diffusers, p. 58 (February).

PATEL, S. A. and J. KEMPNER
Effect of Higher-Harmonic Deflection Components on the Creep Buckling of Columns, p. 215 (August).

PHOTOELASTICITY
Errata to paper by H. T. Jessop *et al*, published in November 1956, p. 206 (May).

REVIEW
The Structure of Turbulent Shear Flow by A. A. Townsend. Reviewed by P. R. Owen, p. 204 (May).

STIFFENERS
Correspondence on "The Design of Intermediate Vertical Stiffeners on Web Plates Subjected to Shear," L. H. Mitchell and K. C. Rockey, p. 395 (November).

SHULESHKO, P.
A Reduction Method for Buckling Problems of Orthotropic Plates, p. 145 (May).

SKAN, S. W. and N. CURLE
Approximate Methods for Predicting Separation Properties of Laminar Boundary Layers, p. 257 (August).

SMITH, AUSTIN G.
On the Generation of the Streamwise Component of Vorticity for Flows in Rotating Passages, p. 369 (November).

VIBRATION
Approximation for the Effect of Twist on the Vibration of a Turbine Blade, A. I. Martin, p. 291 (August).

WATTS, A. B.
Non-Linear Elasticity in Aluminium Alloys, p. 103 (May).

WILLIAMS, J. and A. J. ALEXANDER
Some Exploratory Three-Dimensional Jet-Flap Experiments, p. 21 (February).

WIND TUNNELS
Notes on the Mathematical Design of Nozzles and Wind Tunnel Contractions, N. T. Bloomer, p. 279 (August).

ZIENKIEWICZ, H. K.
Flow about Cones at Very High Speeds, p. 384 (November).
